2. GOVERNANCE FRAMEWORK

2.1 Introduction

The Vision of the RFL is to be a united sport that delivers entertainment, drives commercial value, and improves the lives of our communities. The Rugby Football League is a values driven organisation with its Values being United, Respect, Excellence and Professional.

The strategy of the RFL can be found [here](#).

The current governance structure for the sport is contained within the Articles of Association of RFL (Governing Body) Limited, RL Commercial Limited and Super League (Europe) Limited; a suite of realignment agreements, and the RFL Operational Rules. Whilst each of these documents is independent of the other, they confirm an inter-related governance structure that defines and protects the rights and responsibilities of each component part of the sport.

2.2 Governance Realignment

Background and Rationale

In March 2022, the RFL and SLE agreed to realign the governance of the Sport, and this was supported unanimously by the RFL Members at a Special Council Meeting. Final agreements were signed in July 2022.

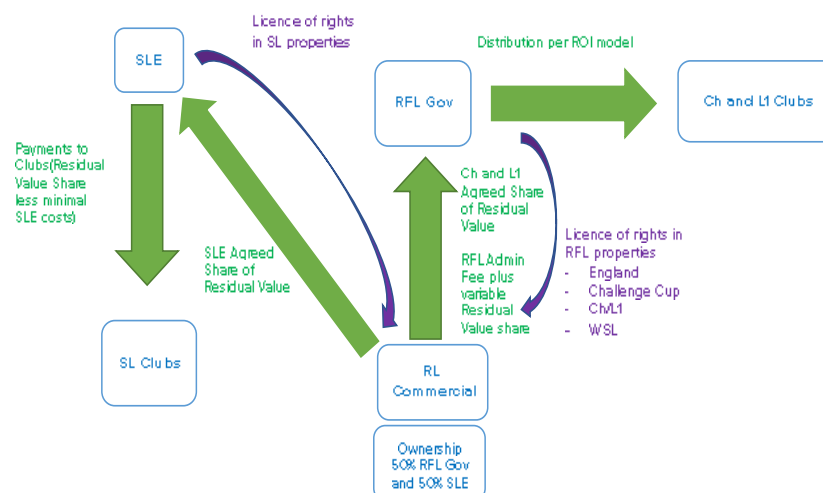

The rationale for the realignment is to:

- Enable the value of the Sport to be maximised by aggregating all commercial, events and broadcast rights enabling rights across the Sport to be offered to potential commercial partners.
- In turn, maximise revenues and therefore returns to the RFL and SLE and Clubs.
- Provide long term financial clarity for all Members and avoid the need for time consuming and resource intensive negotiations in relation to each Super League broadcast contract.
- Enshrine a financial model which means all Members share a destiny with all celebrating and participating in growth of revenues in the Sport irrespective of which asset delivers that growth. As the revenues of the Sport grow, all Members benefit.
- Provide stability and certainty within the Sport.
- Create efficiencies and avoid duplication of function.
- Create 2 operating companies with distinct but mutually aligned goals.
- In RL Commercial, create a vehicle that will be attractive to a strategic partner.

Structure

The new structure is as follows.

GOVERNANCE MODEL

In determining which functions sit with which company, the key drivers are ensuring that:

- RL Commercial is in the best possible position to maximise the value of the Sport across all revenue driving areas.
- The RFL remains a high performing national governing body driving participation, performance of the England teams and independently regulating the sport.
- The 2 operating companies have distinct but mutually aligned goals and have a culture of working collaboratively.

The table below summarises where functions will sit.

RFL	RL Commercial	SLE
Core Governing Body Services <ul style="list-style-type: none"> - England teams - Development and Sport England programmes - Regulation and operation of the Sport - Compliance - Match Officials (including the Pathway) - Participant Membership - International relations (IRL and ERL) 	<ul style="list-style-type: none"> - All broadcast activity - All sponsorship activity - Delivery of events - Merchandising - Marketing - Ticketing - Digital and media 	<ul style="list-style-type: none"> - Distributions to SL Clubs
Supplemental Services (to RFL and RL Commercial) <ul style="list-style-type: none"> - Central services – IT, HR, Finance and Facilities - Legal - Data and Insight - Campaigns and Public Affairs 		
Other <ul style="list-style-type: none"> - Our League Life - Relationship with RL Charities 		

All employees of the 2 operating companies work primarily from the sport's Etihad Campus office.

Finance

The overriding principle of the financial aspects of the Realignment is that of 'shared destiny' with all Members celebrating and participating in the successes of RL Commercial with all benefiting from growth in RL Commercial irrespective of which asset delivers that growth. This is delivered by all profits of RL Commercial (not just broadcast) being divided on the basis of pre-agreed percentages to each of: SLE to distribute to the SL Clubs; the RFL in relation to its function as governing body; and to the Championship and League 1 Members (via the RFL). This long-term deal provides clarity to the RFL and all clubs to enable planning. This certainty is in line with previously expressed wishes of Members and avoids the requirement for negotiation in relation to each broadcast term.

Competition Structure and Format

The Realignment did not involve any change to the existing competition structure and nor does it change who ultimately holds the decision-making powers; however, there is provision for the role of RL Commercial to advise on these matters. Moving forward, RL Commercial will determine fixtures and branding of Competitions.

2.3 IMG

In May 2022, IMG entered into a strategic partnership with the Sport.

The agency will initially focus on competition restructuring, content production and innovation, domestic and international distribution of media rights, digital transformation powered by IMG's digital sports arm Seven League, brand strategy delivered by Endeavor's cultural marketing agency 160over90, and streaming through Endeavor's OTT platform Endeavor Streaming. As part of a second phase of work, IMG will also provide data collection, betting product development and streaming rights.

As part of the partnership, IMG has the right to nominate a director to the board of RL Commercial and an observer to the board of the RFL.

2.4 RFL Council

The RFL Council is made up of all UK based professional clubs and 7 representatives of the Community Game (British Amateur Rugby League Association (BARLA); Combined Services Rugby League and representatives from Education rugby league settings; Higher Education rugby league settings; Tier Four Leagues; Tier Five and Tier Six Adult Leagues; and Tier Five Youth and Junior Leagues).

Each Member is entitled to attend and vote at all meetings of the Council and, in the case of Clubs, share in the profits of the RFL or any distribution of its funds and participate in RFL competitions.

Council Meetings must be held at least twice a year, with the Annual Council Meeting approving the accounts of the RFL, appointing/approving auditors and nominating a Vice President and President. Changes to the Articles of Association of the RFL can only be made upon a Special Resolution approved by 75% of voting Members.

The Articles contain provisions such that, irrespective of the number of Clubs in the Super League, the Championship and League 1, the votes of the Super League Clubs (on the one hand) and the votes of the Championship and League 1 Clubs (on the other hand) carry equal weight. In addition, any resolution must be passed by at least 4 Super League Members and at least 4 Championship or League 1 Members.

Below are links to the Council Agendas for the 2023 Council meetings and the presentations delivered at those meeting.

In 2023 there were 4 Council meetings. It has been agreed to hold 4 such meetings per annum going forward.

Day to day management of the RFL is delegated by the Board to the management team under the leadership of the Chief Executive. Financial authorities are in place for each level of the Executive structure.

2.6 RL Commercial Limited

As set out in Governance Realignment section above, RL Commercial holds and is responsible for exploiting all commercial rights across the Sport.
